

Dear Climate Action Leader,

350 CT and the Sierra Club of Connecticut have initiated work on an important educational event that will help galvanize the movement for the challenges of 2018.

**A Teach-In called “For a Livable World! Climate Justice Now!** will feature talks by local, regional, and national leaders, such as:

- **Jacqui Patterson**, *Director of the national NAACP Environmental and Climate Justice Program*
- **Sean Sweeney**, *Coordinator of Trade Unionists for Energy Democracy*

- **Alexis Rodriquez**, *Fairfield Representative of the Puerto Rican Agenda*
- **Councilwoman Cynthia Jennings**, *Hartford City Council*
- **Martha Klein**, *Volunteer Chair of the Sierra Club of CT*

Together, we will:

- Explore some of the toughest questions facing the climate movement
- Emphasize the necessity of building alliances with those most victimized by the climate change upon us.
- Provide action-focused workshops designed to integrate those new to the movement into all of our state campaigns will take place throughout the day.
- Build a February 28 rally at the Capitol against the limitations of the Comprehensive Energy Strategy.
